

JUNIOR WARDEN

Chris Winders

This year has been a great year for our physical plant. We were able to fix many problems and make changes to improve our facility while also implementing solutions for lowering annual costs. We have had an adequate budget to do what needed to be done.

We improved heating and cooling for Saints' Brew guests, fixed many lighting issues, established a better handle on the Parish Hall HVAC, fixed some outstanding plumbing issues, upgraded guttering, and upgraded kitchen organization.

My goal as Junior Warden for the past two years has been to work with the Rector, Sr. Warden and Vestry to ***reinvest in programs, improve engagement and involvement, and work to grow our membership.***

More specifically, it was to work hard on the budget and our fiscal responsibility to ensure programs were not the whipping post or chopping block during our budget process and throughout the year.

So moving into 2016, it is my hope the Vestry will continue to work on the growth of our membership, improve engagement and find new ways to enhance Parish involvement.

We have a new - Rector Parish Enhancement/Involvement Plan.

We have a talented staff capable of handling our growth.

We have an amazing facility and campus to serve our ministries.

Tell us what you want to do and Get Involved!

May we be God's hands with each other inside our walls, so that we may be equipped, to be God's hands outside our walls.
