

WEBSITE REDESIGN COMMITTEE

Donna Timmons

The Website Redesign Committee was created in 2020 to get our All Saints' website redesigned to be more modern, more user friendly, more maintenance friendly, and more compatible with all devices (laptop, I-pad/notebook, and cell phone).

The committee is comprised of Tommie Moore, Father Phillip Parker, Joellen Murphree, Corey Jackson and me. We enlisted help from Mark Maharrey, Leslie Criss, Frank Anger, and Caleb Bedillion as well. We hired Wil Oakes (former parishioner) of Oakes Creative Agency to create the website. The new website is based on a design he presented the committee coupled with all the information that we asked to be included into the website. Many hours have been spent by this group to determine what should remain on the website, what needed to be deleted from the website, and what needed to be added to the website.

The cost to create the new website is approximately \$2500 and will include 6 months of updates and maintenance. The new website will interface well with Facebook, Instagram, and Twitter. It will allow us to livestream services via Facebook. Included in the cost is a training session for those who will be maintaining the website; specifically, Tommie and a few others. One benefit of the new website will be the ability for changes to be made much easier, so that we can continue to keep the website current well into the future.

We are excited to be able to launch the new website soon (probably before the publishing of this report). We hope that you will like it as well.
