

SAINTS' BREW
Cindy Hudnall, Director

How much money you were budgeted in 2024 (if any): NA

How much money you spent in 2024 (if any)

Total supply expenses for 2024 were \$58,483.36. We received \$31,471.31 in financial donations, with the vast majority of that coming from individual donations. We have an average of \$2 per meal and serve around 85 meals per day.

Goals, projects, etc. that were accomplished in 2024

- Reinstated the pre-pandemic daily menu to provide a variety of breakfast meals.
- Established a Saints' Brew Workforce spreadsheet that provides visualization of any ongoing volunteer needs that is shared with Team Leads as well as parish admin. In addition, we have secured a Sub List for easy communication when needed.
- Created a Message Board that includes motivational statements for guests to take with them and an area for them to leave any notes/thoughts/recommendations to us.
- A Resource Board that has information for local non-profits organizations that our guests may need for areas of support.
- A Community Events Board that has upcoming local events that are free/low cost or potentially beneficial like job fairs and free legal sessions.
- Created a Hygiene Station secured by donations that offers essential necessities as well as emergency clothing and a free library.
- Hosted a free flu shot session from Walgreens and Health Screening by Good Samaritan.
- With the teamwork of Melvin Foster and Mary Jane Meadows, made initial contact to local religious organizations to invite them to help support our Saints' Brew mission. Our areas of requested support include financial donations, support of our Hygiene Station needs, and invitation to join our Saints' Brew team.

Goals, projects, etc. that are in the plans for 2025

- Continued engagement of other churches and build relationships with them to best support the needs of Saints' Brew.
- Secure grant applications.
